Branded Apparel & Merchandise

Who is Lynka?

Founded in 1992, Lynka has grown to be one of Europe's leading companies in the imprinted apparel and promotional products market. We source, supply, design and create branded apparel and merchandise ranging from promotional clothing, workwear, sportswear and corporate attire plus accessories such as caps and bags.

Lynka has become known for its wide range of high-quality apparel and award-winning decoration. The modern production and logistics center located near Krakow, Poland represents one of Europe's most substantial investments in apparel decoration and fulfillment across the continent.

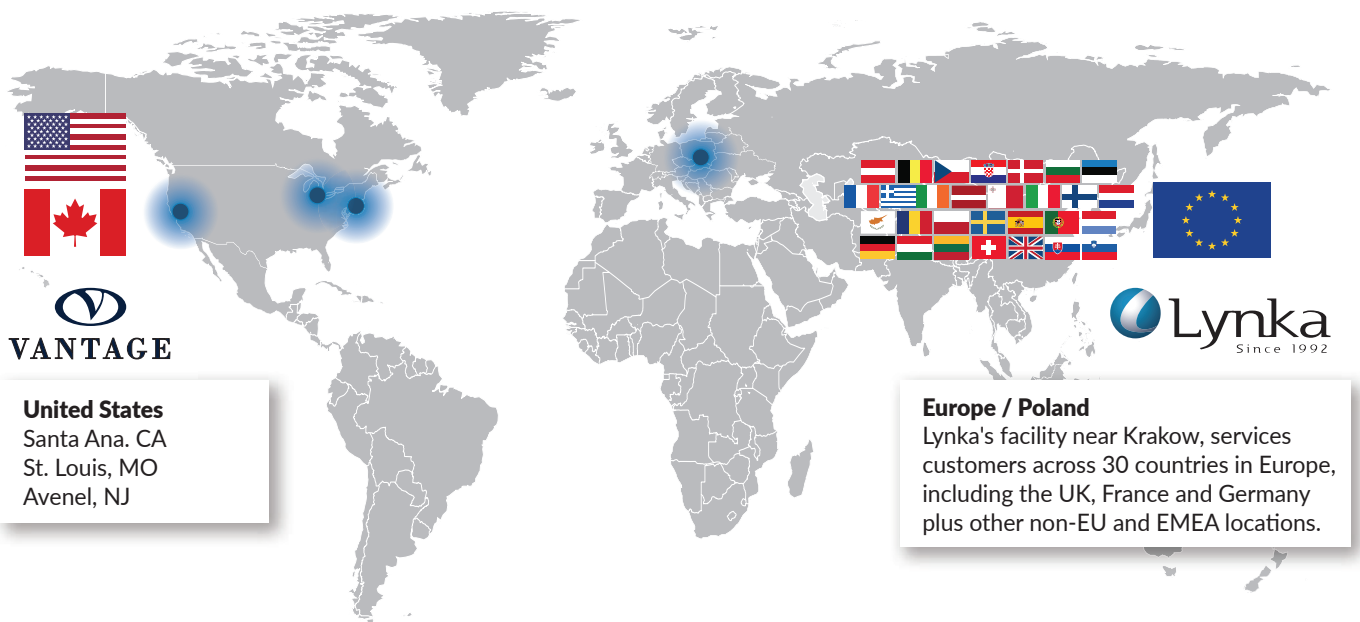

Since our beginnings, we've printed and embroidered over 100 million logos on apparel and accessories for clients across Europe – more than any other decorator. And our quality is second to none – we have won more awards for quality embellishment than any other company in Europe.

In 2021, Lynka joined forces with Vantage Apparel USA and today the combined entity has a global reach. In 2024, according to industry leading trade organization PPAI, Vantage/Lynka ranked #12 globally among promotional product suppliers.

Lynka's 2025 Sustainability Strategy

Lynka sustainability strategy will be based on four (4) core pillars: our company, our suppliers, our customers, and other stakeholders. Joining those pillars together will be our brands, packaging, Lynka employees and communities in which we operate, responsible sourcing and the environment.

Reducing Our Carbon Footprint in 2025!

Lynka is working relentlessly to reduce our carbon footprint for years and in early 2025 we are making another great leap forward with the installation of solar panels on the grounds of our Krakow factory. The solar panels will provide enough power to heat and light-up Lynka for 6-months of the year.

Award-Winning Decoration

With almost three decades of experience, Lynka offers unrivaled quality and expertise, along with an end-to-end solution for all of your decorated apparel needs. Lynka leads the industry in award-winning decoration quality, workmanship and innovation. Lynka's experience allows the most complex image or logo to look its best on the many fabrics and colors in our collection. Printwear Magazine, a leading trade journal on the apparel decoration industry wrote:

Lynka is one of the premier apparel-decorating and promotional product facilities in all of Europe – in fact, let us make that all the world.

Printwear Magazine, USA

"Lynka has won more awards for quality print & embroidery than any other promotional clothing company in Europe."

The secret to our Quality

With Lynka... it's **not just a print.**

It's an **Award-Winning** print.

It's an **Eco-Friendly** print.

It's a **WRAP-certified** print.

Kornit Direct-to-Garment significantly reduces water usage, decreases waste, minimizes carbon footprint and eliminates harmful chemicals. Eco-friendly, GOTS 3V certified.

Low consumption premium **Virus** brand **water-based inks** for eco-friendly textile screen printing.

Our **Rutland** plastisol inks are **PVC and phthalate free.**

Lynka's quality can be explained by seven critical components:

- **AQL QUALITY STANDARDS** - Every single order is checked by our QC department using AQL standards
- **EQUIPMENT** - We use only high precision decoration equipment, engineered to provide tight registration and precise reproduction of graphic images.
- **ACCESSORIES** - In printing, the finer the resolution, the better effect. For screen printing we use only high-tension frames with very high mesh counts. In Embroidery, we only use Tajima machines & Madeira threads.
- **SUPPLIES** - We import special inks from USA which guarantee vivid colors and striking effects.
- **ARTWORK** - Color separations and pre-production artwork are very important and Lynka works with some of the top graphic artists in Europe.
- **INVESTMENT IN R&D** - We constantly invest in developing new print techniques and in improving efficiency – with a goal of continuous improvement.
- **THE PEOPLE** - The key final ingredient is the team. Lynka has a well developed 'Printer Academy' that insures us an ongoing stream of talented printers and technicians.

100% ORGANIC IS NOT ENOUGH

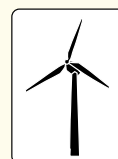

That's why, 20 years ago, we decided to go all the way being the only basic apparel brand in the world fully certified across the entire value chain.

Yes, our cotton is 100% organic, but what about the farmers who pick it? They deserve a premium pay! Factory workers? We secure safe working conditions and fair wages. Our energy? Powered by sun and wind. Wastewater? Thoroughly cleaned and reused. And every finished product? Screened from hazardous chemicals. All this defined and monitored by the strictest external organizations.

For us, it's more than clothing. It's a chain of care, from field to fabric, respecting people and planet in every thread.

STRONG IN THE STORM

The newly launched classic from FARE, the AOC golf pocket umbrella Jumbomagic® Windfighter® 2.0, is well equipped to withstand strong winds. The cover, made of waterSAVE® polyester pongee dyed using a water-saving process, and a handle made of recycled plastic also make it a sustainable advertising material.
